

TP-IDP

Industrial Distribution Panel

This **Texas Panel Company** exclusive is a standard industrial power distribution panel for indoor or outdoor use. For source voltages up to 600VAC/250 VDC, 50/60hz.

The **TP-IDP** includes:

- Molded case main circuit breaker for 3-pole 4-wire source voltage with (optional) exterior operator
- Four (4) finger-safe power distribution blocks
- Six (6) DIN-rail mounted 1-pole, 2-pole, or 3-pole miniature branch circuit breakers (UL 489)
- 304SS NEMA 4X wall-mount enclosure

Why choose the **TP-IDP**?

- Built for industrial applications
- Suitable for corrosive environments
- Compact size (when compared to traditional breaker panels)

Starting at \$4,400 USD. Dimensions may vary. Our standard control panels are expertly designed and manufactured to simplify the selection process and suit a range of applications. Project-specific customization is available upon request.
